Plant and equipment for processing of raw materials										
Handling of ore, coke and other raw material				•						
Processing of ore and/or scrap				•						•
Coking plant facilities										•
Plant and equipment for iron making/reduction processes										
Blast furnace processing										•
Reduction processes (electric, direct, melting)										•
Steel production plant and equipment										
Steel production BOF route								•		•
Steel production EAF route								•		•
Secondary Metallurgy										•
Continous casting (near-net-shape/strip/horizontal)								•		•
NF Metal production, plant and equipment										
Reduction refining (incl. Electrolysis)										
Melting reduction		•								
Continous casting										
Plant and equipment for shaping of steel										
Complete plants (e.g. rolling mills)		•	•			•			•	•
Reheating furnaces		•	•			•				•
Hot/cold rolling of steel		•	•			•		•	•	•
Other hot/cold shaping processes (e.g. forging)								•		
Plant and equipment for shaping of NF-Metals										
Complete plants (e.g. rolling mills)	•	•							•	•
Hot/cold rolling of NF-metals	•	•						•	•	•
Other hot/cold shaping processes (e.g. forging)								•	•	
Strip processing lines										
Continous annealing		•	•			•		•	•	•
Pickling		•	•			•		•	•	•
Galvanizing		•	•			•		•	•	•
Colour coating		•	•			•		•	•	•
Tinning lines		•						•	•	•
Finishing line equipment for										
Flat products	•	•	•			•	•	•	•	•
Long products			•			•		•		•
Tubes/pipes						•				•
Electrical drives and (integrated) automation system	•	•				•	•			•
Miscellaneous eqipment										
Storage and conveying		•		•						•
Metal-cutting machinery	•	•					•			•
Water hydraulics								•		•
Auxiliary (e.g. roller bearings, wear parts)		•							•	•
