Metal-working industries																																																				
melting of steel, iron and non-ferrous metals																																																				
heating, preheating, holding																																																				
heat treatment and surface treatment																																																				
vapour deposition (PVD, CVD), coating																																																				
others																																																				
Stone and earth industries																																																				
glass industry																																																				
ceramic industry																																																				
cement, lime and gypsum industry																																																				
others																																																				
Chemical and petrochemical industries																																																				
chemical industry																																																				
petrochemical and mineral oil industry																																																				
others																																																				
Other industries																																																				
wood, plastics, textiles industry																																																				
others																																																				
Process firing equipment																																																				
industrial burners for solids																																																				
industrial burners for liquid fuels																																																				
industrial burners for gaseous fuels																																																				
inductive heating including HF and MF generators																																																				
resistance heating																																																				
microwave heating, plasma heating																																																				
others																																																				
Other components and accessories for industrial furnaces																																																				
recuperators, regenerators																																																				
protective and reactive gas generating equipment																																																				
environmental protection systems																																																				
control systems																																																				
heat-insulating and refractory material																																																				
others																																																				
Services related to products																																																				
engineering, design																																																				
assembly, commissioning																																																				
maintenance, inspection, repair																																																				
safety inspection																																																				
others
